

BOM for End switch version

Id.	Name	Pcs.
1.	DDG_BREAK_SHAFT	1
2.	DDG_BRAKE_WHEEL_HAPTIC	1
3.	DDG_BRAKE_WHEEL_1	1
4.	DDG_BRAKE_WHEEL_2	1
5.	DDG_BRAKE_WHEEL_3	1
6.	DDG_BRAKE_WHEEL_4	1
7.	DDG_BREAK_HANDLE	1
8.	DDG_BREAK_HANDLE_BARREL	1
9.	DDG_BRAKE_SWITCH_HOUSING	1
10.	DDG_BREAK_SWITCH_HAPTIC	1
11.	DDG_POWER_SHAFT	1
12.	DDG_POWER_RING	1
13.	DDG_POWER_HANDLE_WHEEL	1
14.	DDG_POWER_WHEEL_1	1
15.	DDG_POWER_WHEEL_2	1
16.	DDG_POWER_WHEEL_3	1
17.	DDG_POWER_END_CAP	2
18.	DDG_POWER_SWITCH_HOUSING	1
19.	DDG_TOP_HOUSING	1
20.	DDG_TOP_POWER_LOWER_SUPPORT	3
21.	DDG_POWER_ASSEMBLY	1
22.	DDG_TOP_POWER_UPPER_SUPPORT	3
23.	DDG_POWER_SWITCH_ASSEMBLY	1
24.	DDG_BREAK_ASSEMBLY	1
25.	DDG_BREAK_SWITCH_ASSEMBLY	1
26.	DDG_TOP&BOT_LINK	4
27.	DDG_POWER_HANDLE_ANGLE	1
28.	DDG_POWER_HANDLE_END_CAP	1
29.	DDG_TOP_SELECT_BUTTON	1
30.	DDG_TOP_START_BUTTON	1
31.	DDG_TOP_A_BUTTON	1
32.	DDG_TOP_B_BUTTON	1
33.	DDG_TOP_C_BUTTON	1
34.	DDG_BOTTOM_SHELL	1
35.	DDG_BOT_STR_SEL_LINK	1
36.	DDG_TOP&BOT_LINK	4
37.	DDG_POWER_HAPTIC HOLDER	1
38.	DDG_POWER_HAPTIC	1
39.	DDG_BOTTOM_START_SUPPORT	1
40.	DDG_TOP_ASSEMBLY	1
41.	DDG_BOTTOM_ASSEMBLY	1
42.	END SWITCH	7
43.	M4x14 Bolt (PH/PZ/HEX/TX)	10
44.	M2x30 screw with HEX head	4
45.	M2 NUT	4
46.	M2 washer (under head of M2 bolt, 4 per bolt)	12
47.	Self-taping screw 3x8 or bolt M3x8 (up to M3x12)	21
48.	M3x12 (Can be shorter)	9
49.	Heat insert M4	6
50.	Push button 3x4x2	6
51.	Universal PCB	1
52.	Thin guage wires (30AWG). They should not be a single core wires (8 colores minimum)	

Additional parts for POGO Version:

1.	DDG_BREAK_SHAFT (same as end switch version)	1
2.	DDG_BRAKE_WHEEL_HAPTIC (same as end switch version)	1
3.	DDG_POGO_BREAK_SPACER	1
4.	DDG_POGO_BREAK_WHEEL_MAG	2
5.	DDG_POGO_BREAK_WHEEL_0	1
6.	DDG_POGO_BREAK_WHEEL_1	1
7.	DDG_POGO_BREAK_WHEEL_2	1
8.	DDG_POGO_BREAK_WHEEL_3	1
9.	DDG_POGO_BREAK_WHEEL_4	1
10.	DDG_POGO_BREAK_WHEEL_SUPPORT	1
11.	DDG_BREAK_HANDLE (same as end switch version)	1
12.	DDG_BREAK_HANDLE_BARREL (same as end switch version)	1
13.	DDG_POWER_SHAFT (same as end switch version)	1
14.	DDG_POWER_RING (same as end switch version)	1
15.	DDG_POWER_HANDLE_WHEEL (same as end switch version)	1
16.	DDG_POGO_POWER_WHEEL_MAG	2
17.	DDG_POGO_POWER_WHEEL_0	1
18.	DDG_POGO_POWER_WHEEL_1	1
19.	DDG_POGO_POWER_WHEEL_2	1
20.	DDG_POGO_POWER_WHEEL_3	1
21.	DDG_POWER_END_CAP	2
22.	4 pin POGO connector	1
23.	5 pin POGO connector	1

For part number 42 – End switch use 12,8X6X6MM Limit switch. I've use this one:

<https://pl.aliexpress.com/item/1005005596552328.html?gatewayAdapt=glo2pol>

but this also should work:

<https://www.tme.eu/pl/en/details/d2f-01/microswitches-snap-action/omron-electronic-components/>

Just search for a limit switch that have the same dimensions.

The pogo connector I've bought from this page:

<https://pl.aliexpress.com/item/1005010344694119.html?gatewayAdapt=glo2pol>

Links to aliexpress are in Polish so adjust language to your country. I've ordered this parts long before EU tarfis. Maybe you can find same connectors on other sites.

For a push switch you can use any other design. It may be needed to trim „wings” on the buttons to make them fit.

For Universal PCB I've used this kind of board:

<https://www.tme.eu/pl/en/details/rad-710-5/universal-pcbs/rademacher/710-5/>

I've used this one because I've this one already. You can use other types of PCBs but it's better to use board with 1.6mm thickness.

For connecting wires use a flexible wires as the are easier to handle inside the housing. I've recommend to use at least 8 colours for easier recognition what wire goes where. But I'm no gonna to stop you from using only one color for all cables.
